## CAPABILITY STATEMENT

### WHO WE ARE

theta six is an SBA-approved 8(a) and HUBZone Mentor-Protégé joint venture between theta. and agile six, a partnership grounded in authenticity, shared values, and trust. As a fully remote company, we serve shoulder-to-shoulder with federal agencies to find innovative, human-centered solutions. Using modern technology and design, we work to create user-friendly, accessible, and inclusive government services for everyone.

### HOW WE WORK

We build better by putting people first in everything we do, from our company culture centered on wholeness and inclusion to our human-centric, data-driven solutions developed in close collaboration with our clients.

What sets theta six apart is our ability to create extraordinary outcomes through purpose-driven cross-disciplinary teams, healthy delivery ecosystems, and trust-based relationships with partners and stakeholders.

We are driven by our core values of Passion, Purpose, Wholeness, Trust, Self-Management, and Inclusion.

### WHERE WE WORK

theta six is recognized as a trusted partner with the following organizations:

#### Centers for Disease Control and Prevention (CDC)

In support of the CDC's Pandemic Readiness and Data Modernization Initiative to modernize core data and surveillance infrastructure, theta six is creating integrated, real-time solutions across federal, state, and local health landscapes.

#### Centers for Medicare & Medicaid Services (CMS)

Partnering with CMS to modernize complex Medicaid data reporting and Medicare payment systems, theta six is utilizing user research and human-centered design to reduce burden and improve outcomes.

#### Department of Veteran Affairs (VA)

In support of VA's Digital Modernization effort to create an exceptional user experience, theta six is implementing digital services that make it easier for Veterans and VA stakeholders to access the services and support they deserve.

#### Office of Personnel Management (OPM)

Partnering with OPM to better serve the federal workforce and their families, theta six is creating robust digital support services capabilities to rapidly design, deliver, and evolve exceptional digital products and experiences.

#### Health and Human Services (HHS) Office of Grants (OG)

theta six is enhancing the federal grantmaking process, focusing on improving accessibility and equity. This initiative aims to simplify the application process for HHS and non-HHS grants, making it easier for historically underserved communities to access crucial funding.

## WHAT WE DO

theta six delivers innovative, transformational outcomes for our partners.

### UX RESEARCH

We transform the digital experience by talking to people first, conducting both qualitative and quantitative research, and applying what we learn.

### HCD

We solve problems by focusing on human needs and leveraging design thinking, hypothesis testing, and empathy to create better user experiences.

### CONTENT

We provide expertise in the planning, creation, delivery, and governance of content that is both useful and usable.

### PRODUCT

We support the strategic planning, development, launch, and management of digital products that meet user needs and stakeholder expectations.

### AGILE DELIVERY

Our trust-based teams meet clients where they are and guide them in adopting modern delivery principles, practices, and tools.

### ENGINEERING

We use modern, open-source technologies and agile development practices to design and build secure, scalable, extensible services and applications.

### DevSecOps

We build secure infrastructures that automate, standardize, and simplify the testing and deployment of services using modern CI/CD practices.

### HEALTHCARE INTEROPERABILITY

We create innovative, practical solutions that allow government agencies and organizations to efficiently share and utilize health data.
